

# TeachMeet

## Women in Educational Leadership

Celebrate the experiences of women in educational leadership by hearing about the challenges and triumphs Union women have experienced. The speakers will be drawn from a breadth of school/early childhood and head office positions. This is a time to hear about other women's journeys into and during leadership.

In education, approximately 70% of teachers identify as women, but only about 30% of leadership positions are held by women. This event is about hearing how women have risen to those positions and to inspire others to achieve their goals as well.

A TeachMeet is an PD event where multiple speakers share their stories and strategies and the participants can ask questions.
